Examination of the Concrete Ceiling Pers Nadine Johnson, 2006-11 Research indicates that although women have

progressed in their representation in management positions in corporate organizations, they are still subject to gender inequality (Cohen & Huffman, 2003; Gazso, 2004; Karlin, England, & Richardson, 2002). For African American women, they are further subjected to race and class inequalities. The proposed research is intended to examine the unique personal and professional views and experiences of 10 African American women managers and leaders working in White, male-dominant cultures. It will further determine if these African American women working in such a culture agree in their perceptions of inequalities contributing to the low representation in managerial and leadership positions within their respective organizations.

Personal Security Ulrich Drobnig, 2007 The Study Group on a European Civil Code has taken upon itself the task of drafting common European principles for the most important aspects of the law of obligations and for certain parts of the law of property in movables which are especially relevant for the functioning of the common market. Like the Commission on European Contract Law's Principles of European Contract Law, the results of the research conducted by the Study Group on a European Civil Code seek to advance the process of Europeanisation of private law. Among other topics the series tackles sales and service contracts, distribution contracts and security rights, renting contracts and loan agreements, negotiorum gestio, delicts and unjustified enrichment law, transfer of property, and trust law. The principles furnish each of the national jurisdictions a grid reference. They can be agreed upon by the parties within the framework of the rules of private international law. They may provide a stimulus to both the national and European legislator for moulding private law. Beyond this, they aim to further discussion about the creation of a European Civil Code, or a Common Frame of Reference in the area of patrimonial law, by submitting a concrete model. The Principles of European Law are published in co-operation with Stämpfli, Bern (Switzerland). For other co-operation-partners and for more information see www.sellier.de.

Corporate Governance Joachim Schwalbach, 2012-12-06 Corporate Governance is a subject of great interest to academics, investors, and politicians throughout the world. Corporate governance is associated with the way firms are managed and controlled. Countries have adopted different governance systems to resolve the corporate governance issues.

Anglo-Saxon systems differ from European and Japanese systems, and Eastern Europe and China, for instance, experiment with the way private organizations should be governed. Despite the great interest and intense debate, empirical evidence on the effectiveness of various governance systems is still sparse. This book brings together most current contributions from various perspectives and from an international angle. The book is an essential reading for academics, university students, practitioners, investors, politicians, and legislators.
